PROMOTIONS

1. NNI RSP Connect Promotion

Overview

The Network to Network (**NNI**) RSP Connect Promotion (**NNI RSP Connect Promotion**) is a new incentive program for Vision Network's new and existing wholesale customers.

For new customers joining Vision Network, the NNI RSP Connect Promotion allows them to connect their first 1Gbps or 10Gbps NNI at any or all of Vision Network's Point of Interconnect (**POI**) locations with no up-front cost, and waives the monthly recurring charge for such POIs from 1 March 2023 to 30 September 2025.

However, existing wholesale customers of Vision Network may also take up this offer by connecting their first eligible NNI at a POI location where they are not already connected as at 1 March 2023. This allows Vision Network's existing wholesale customers the opportunity to provide new product types they may have otherwise not provided including our FTTB, FTTN and HFC products in locations where they may have previously not been connected to.

Eligibility criteria apply to the NNI RSP Connect Promotion. Please see details in the terms and conditions below.

Promotion Terms

- a) The NNI RSP Connect promotion is available to new and existing wholesale customers of Vision Network who have executed a Wholesale Service Agreement with Vision Network.
- b) The NNI RSP Connect promotion is available from 1 March 2023 until 30 September 2025. During this period, Vision Network's wholesale customers who take up this promotion will (subject to meeting eligibility criteria) receive a 100% discount on the NNI setup fee (1Gbps or 10Gbps only) for the first NNI at each of Vision Network's POI locations ordered and delivered in 2023. The promotion will not apply to any NNI orders placed before 30 September 2025.
- c) The promotion will only apply to 1Gbps and 10Gbps NNI orders.
- d) As part of the NNI RSP Connect Promotion, the first NNI ordered by Vision Network's wholesale customers at a POI location will (subject to meeting eligibility criteria) also receive a 100% discount on the monthly recurring charge from the delivered date of the NNI until 30 September 2025. From 1 October 2025 onwards the regular monthly charge for NNIs as set out in the Vision Network Price Book will apply.
- e) Vision Network's wholesale customers are required to connect and maintain a minimum of 10 Local Access Line Services per each 1 Gbps

POI or a minimum of 30 Local Access Line services per each 10 Gbps NNI within six months of the NNI connection date to receive the benefit of the NNI RSP Connect Promotion. If the minimum number of Local Access Line services are not connected and maintained in this period for any NNI ordered under the promotion, Vision Network reserves the right to charge the regular NNI setup fee and monthly charge for that NNI.

- f) The NNI RSP Connect Promotion applies only to the first NNI either 1Gbps or 10Gbps ordered at a given POI location. In other words, the promotion will not apply where a wholesale customer has an existing NNI in place or to any NNI upgrades or subsequent orders, which will be charged at Vision Network's standard rates as set out in Vision Network's Price Book.
- g) Vision Network's wholesale customers may choose the NNI location and product types they wish to offer at each POI location at their discretion.
- h) Vision Network reserves the right to limit the number of NNIs ordered under the promotion per POI location and in total across Vision Network's national footprint in its sole discretion, and preference will be given on a first come, first served basis.
- i) Vision Network will use its best endeavors to provide an acknowledgement and confirmation of order receipt and eligibility of the order for the NNI RSP Connect promotion within 1 week of a customer ordering an NNI connection during the promotion period.
- j) All existing terms and conditions of the Vision Network Wholesale Service Agreement and Vision Network Service Description apply to any NNIs ordered under the NNI RSP Connect Promotion.
- k) Vision Network's wholesale customers must source their own back-haul connectivity delivered to a Vision Network NNI, along with any necessary terminating equipment on the customer side to interface with the Vision Network NNI.
- l) Service delivery times for NNI connections during the campaign may vary. Vision Network will fulfil orders on a first-come, first-served basis. Vision Network will use all endeavors to deliver NNI connectivity as soon as practicable. Customers will be notified of indicative installation dates by the Vision Network customer on-boarding team.
