

19 December 2025

Changes to Vision Network Wholesale Price Book effective 1 March 2026

Dear Retail Service Provider,

Vision Network Pty Limited conducted a market consultation in November 2025 of proposed changes to its Price Book. We thank our existing and prospective Retail Service Providers (**RSPs**) for the level of engagement and feedback provided in response to our Consultation Paper. We have taken time to consider this feedback and believe the changes we intend to make to the Price Book to be reasonable and necessary.

Vision Network is issuing an updated Price Book (Version 5.1) which will take effect on 1 March 2026, being 60 days from the date of this letter.

On and from 1 March 2026, Price Book (Version 5.1) will supersede and replace the existing Price Book (Version 5.0). Any orders placed until 28 February 2026 will continue to be charged in accordance with Price Book (Version 5.0).

We encourage RSPs to familiarise themselves with Price Book (Version 5.1), which is available [here](#), together with a document showing all changes from Price Book (Version 5.0). However, for your reference we have summarised some of the key changes below:

1. Increase of MRC for certain Spectrum Freedom and Spectrum Super Freedom Plans

Consistent with the consultation Vision Network conducted in November 2025, from 1 March 2026 Vision Network is increasing the monthly recurring charge (**MRC**) for certain speed tiers of its Spectrum Freedom and Spectrum Super Freedom Plans.

2. Install Fee for non-standard installations to \$99

From 1 March 2026, Vision Network will charge the installation fees for any Spectrum Freedom and Spectrum Super Freedom Plans.

If you have any questions about this letter, please contact sales@visionnetwork.com.au

Sincerely,

Jonathan Purbrick

Head of Vision Network
